OUR MISSION

The Mission of Peaceful Purpose Hospice is to humbly serve the community by providing quality care and support to patients and their loved ones, while nearing the end of life's journey. Our ultimate mission is peace and comfort.

OUR SERVICES

Routine Home Care

Care provided at the patient's residence, which includes private residence, nursing facility, assisted living facility or personal care home.

Continuous Care

Care provided when the patient is in a crisis and symptom(s) cannot be managed with routine home care. The hospice team continuously provides care at the patient's residence until the symptom(s) are managed.

Respite Care

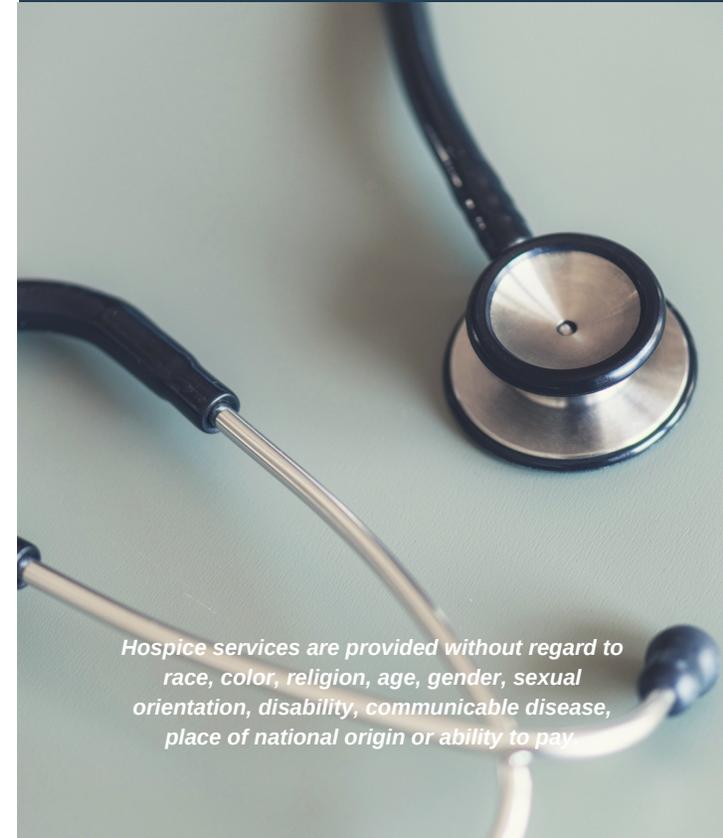

Care that provides temporary relief to the caregiver by transferring the patient to a facility that is contracted with Peaceful Purpose Hospice of Georgia for a maximum of five days.

Inpatient Care

Care that begins when other efforts to manage symptoms have been ineffective and a higher level of care is deemed necessary by the hospice team and attending physician as authorized by Medicare, Medicaid or commercial insurance. Provided in a contracted inpatient facility, this level of care is designed for stabilization of acute needs and symptom management and the patient returning to the routine home setting.

OUR ADVANTAGE

Personalized and professional care that is centered around patient's goals and assistance is delivered in any setting that the patient identifies as a residence. Our team will take a holistic approach to provide services to you and your family focusing on physical, mental, and psychological needs while maintaining the peace, comfort and trust that is essential in providing the highest quality of life during the end of life stages.

Hospice services are provided without regard to race, color, religion, age, gender, sexual orientation, disability, communicable disease, place of national origin or ability to pay.
